<h1 class="homeheading">Hello, I'm Bhavaya</h1>

<p>

Welcome to my portfolio! I am an MCA student with an interest in Generative AI, web development and technology. I enjoy learning new concepts, working on practical projects and exploring creative solutions to real-world problems.

</p>

</div>

<div id="about">

<h1>About Me</h1>

<p>

I am a postgraduate student pursuing Master of Computer Applications (MCA). I am interested in understanding how technology and data can be used to solve real-world problems. I enjoy exploring Data Science and Generative AI, programming and web design. Apart from academics, I like working on creative projects where I can combine technical skills with good design.

</p>

</div>

<div id="qualifications">

<h1>Qualifications</h1>

<p>

Master of Computer Applications (MCA)

Currently pursuing MCA with an interest in Data Science and
Computer Applications.

Bachelor's Degree

Completed my undergraduate studies and developed a strong
foundation in computer applications and programming.

Academic Interests

Data Science, Web Development, Database Management and
Artificial Intelligence.

</p>

</div>

<div id="skills">

<h1>Skills</h1>

<p>

Programming: Python

Web Technologies: HTML, CSS, JavaScript

Database: SQL and Database Management

Tools: Jupyter Notebook, VS Code, Figma

Projects

Airbnb Fair Price Prediction & Opportunity Detection

A Data Science project that analyzes Airbnb listing data, predicts the expected price of a property and compares it with the actual listing price to identify potentially underpriced, fairly priced and overpriced listings.

Hotel Heritage Project

Heritage Hotel Website is a front-end web development project designed to showcase a traditional heritage hotel and its services. The website provides information about the hotel, rooms, facilities, dining options, heritage/cultural features, and contact details. The main aim is to create an attractive and user-friendly interface that combines traditional heritage aesthetics with modern web design.

Pure Health Hospital Website

Pure Health Hospital Website is a front-end web development project designed to provide users with an easy and informative way to explore hospital services. The website includes sections such as home, about the hospital, doctors, departments, services, appointments, and contact information. The main focus is on creating a clean, professional, and user-friendly interface that makes important healthcare information easy to access.
